LEADING THE WAY IN REPRODUCTIVE FREEDOM

FY 2021-2022 ANNUAL REPORT

A LETTER FROM PRESIDENT & CEO JON DUNN

The Supreme Court may decide to overturn the constitutional right to abortion, but as the progressive leader in Orange and San Bernardino Counties, the Community Action Fund (CAF) will not back down. We know this unjust decision is an attack on our freedom and rolls back decades of progress for equitable healthcare and financial independence our predecessors relentlessly fought for. The Community Action Fund is standing strong, and we will continue that fight at all levels of government to maintain California’s status as a reproductive freedom state.

This past year, we worked to defeat the Governor’s recall election as well as implemented a multi-angled campaign to encourage individuals to register and vote. In the Primary Election, we endorsed 43 pro-choice candidates, and 79% of these candidates won or moved forward to the General Elections in November.

Thanks to our advocates, elected officials, and donors, California is leading the way in protecting abortion access in the wake of the Supreme Court’s decision to revoke our constitutional right. We know that our community and our supporters will continue to show up and speak out in support of reproductive freedom.

At our Bans Off Abortion Rally in May, more than 4,000 supporters and pro-choice elected officials came together in defense of abortion access. When the Supreme Court formally announced their ruling to overturn Roe v. Wade, the community once again rallied together in thousands across Orange and San Bernardino County, and across the nation in protest of this decision and in solidarity for those in states immediately impacted by trigger law bans.

The road ahead to protect abortion won’t be easy and it will be a long haul battle, but the Community Action Fund is ready and willing to stand up and fight for our right to reproductive freedom. Abortion is healthcare, and we must continue to speak out and show up at every opportunity and every election to remind politicians and the community of this irrefutable fact.
