Care More. Judge Less.
We are committed to providing essential sexual health services, including abortion and gender affirming care in Albany, Columbia, Greene, and Rensselaer counties.

In 2022, more than 300 community members made a meaningful financial commitment and are taking a public stand in support of our mission to promote healthy sexuality and protect reproductive choice for all through exceptional services and education and fearless advocacy.

The promise of a brighter future is here, together we will fight for all.
