

2022 PLANNED PARENTHOOD ADVOCATES PASADENA & SAN GABRIEL VALLEY

In 2022, the Supreme Court of the United States (SCOTUS) overturned Roe v. Wade, taking away the right to abortion from millions of Americans. Their decision unleashed fear, chaos, and uncertainty across the country as individual states suddenly had the power to enforce abortion restrictions or outright bans on the procedure. Many out of state patients sought care including at local Planned Parenthood Pasadena & San Gabriel health centers.

Planned Parenthood Advocates responded by advocating at the federal, state, and local levels to enact laws, policies, and budget allocations that protect and expand access to abortion and other life saving health care.
