

This is Who We Are

Creating a Healthier World for All

Planned Parenthood is the nation's leading provider and advocate of high-quality, affordable sexual and reproductive health care for all people, as well as the nation's largest provider of sex education. With nearly 600 health centers across the country, Planned Parenthood organizations serve all patients with care and compassion, with respect, and without judgment, striving to create equitable access to health care. Through health centers, programs in schools and communities, and online resources, Planned Parenthood is a trusted source of reliable education and information that allows people to make informed health decisions. We do all this because we care passionately about helping people lead healthier lives.

- According to Kaiser Family Foundation, one in three women in the U.S. has visited a Planned Parenthood health center.
- Planned Parenthood health centers provide health care that helps patients prevent an estimated 325,000 unintended pregnancies in a single year.
- Planned Parenthood Global's partners provided health services to 500,000 people and trained more than 28,000 people in sexual and reproductive health and rights.
- Planned Parenthood websites, including Planned Parenthood en español, receive an estimated 185 million visits in a single year.
- In 2022, of Planned Parenthood patients who report their income, nearly 70% live with incomes at or below 150% of the federal poverty level, the equivalent of \$46,800 a year for a family of four.
- Planned Parenthood affiliates provide the following services to 2.05 million patients – nearly half of whom are people of color – including more than 511,000 patients who identify as Latino and over 351,000 patients who identify as Black:
 - birth control to nearly 1.55 million patients
 - nearly 198,000 Pap tests
 - nearly 213,000 breast exams
 - screenings to more than 62,000 patients whose cancer was detected early or whose abnormalities were identified and addressed
 - more than 4.6 million tests and treatments for sexually transmitted infections, including more than 738,000 HIV tests, and diagnoses of more than 257,000 STIs
 - more than 550,000 emergency contraception kits
 - education and outreach programs to 1.1 million people
 - more than 4.4 million engagements with digital education tools and video resources
