

Planned Parenthood of Greater Washington and North Idaho **Good Faith Estimate**

What is a Good Faith Estimate?

Under Section 2799B-6 of the Public Health Service Act, health care providers and health care facilities are required to provide a good faith estimate of expected charges for items and services to individuals who are not enrolled in a plan or coverage or a Federal health care program, or not seeking to file a claim with their plan or coverage both orally and in writing, upon request.

Estimate for Services at PPGWNI

What will my health care visit cost? The cost of your visit depends on factors like whether you have insurance, your income and family size, what services you're looking for, what your provider decides is necessary, and the length and complexity of your visit. If you have insurance, many services, like birth control and preventative exams, are covered with no out-of-pocket cost

What Can Insurance Cover?

Plans vary, but most cover a wide range of preventive care, like birth control and preventative exams, without co-pay or deductible. You can read more about the types of services that are usually covered on the official HealthCare.gov website.

It's a good idea to contact your health insurance company directly to make sure the services you're interested in are covered. They can tell you if you'll need to pay for anything out-of-pocket.

Insurance – PPGWNI is in-network for these plans at all health centers.
